

ADMINISTRATIVE PROCEDURE

General Administration

Electric Vehicle Parking

GEN #15

Revised May 2024

Background

Christ The Redeemer (CTR) Catholic School Division supports the use of alternative transportation choices to reduce the safety and environmental impacts associated with single-occupant vehicle demand.

Procedures

New schools provide electric vehicle charging stations for staff and visitors of CTR with electric vehicles. Electric vehicle charging stations are not intended for use by the general public. Designated electric vehicle parking stalls are available in the school parking lot, identified by distinct signage, and a secure charging receptacle.

Electric vehicle users shall notify school administration of their intent to use an electric vehicle parking stall and charging station, and shall provide to administration their name, vehicle description, and license plate number. Users shall sign out at the end of their use of the electric vehicle charging station.

Use of electric vehicle charging stations is at the user's risk and discretion. Users shall conduct themselves appropriately, and in a safe and responsible manner when utilizing the charging stations, and while on school premises.

CTR Catholic is not responsible for any issues that may arise out of a user's use or misuse of the stations. Administration will be notified immediately should any issue arise in association with use of the electric vehicle charging stations. Administration shall, at their discretion, take actions as necessary to remedy the issue.
